A GROUP EXHIBITION OF WATER COLOR PAINTINGS, PASTELS AND DRAWINGS BY AMERICAN AND EUROPEAN ARTISTS

APRIL 14 - MAY 10 INCLUSIVE

1925

THE GETTY CENTER
LIBRARY

FOREWORD

In organizing the third exhibition of water color paintings, pastels and drawings at the Brooklyn Museum, the Committee has adhered in general to the policies which governed the previous exhibitions.

The majority of the present group of exhibitors have not shown at the Museum since 1923 and the list contains some names entirely new to the Brooklyn Museum public.

The artists' interest in water color painting continues unabated and the tendencies are sound, especially as demonstrated in the present exhibition by the almost universal adaptation by the painters of direct, vigorous methods of execution.

In a measure the exhibition of 1925 is a review of the work, in these subtle mediums, of a number of diffierent schools of painting and is ample evidence that in America not only is the technical accomplishment of a high order but that our artists are working seriously and with telling effects. The group of pictures by European artists embraces in part the recent acquisitions of the Brooklyn Museum.

To the Babcock Gallery, Daniel Gallery, Grand Central Art Gallery, Milch Gallery, Montross Gallery, New Gallery, the Cleveland Museum of Art, Mr. Harley Perkins, Mrs. Marie Sterner, Messrs. Scott and Fowles and Mr. E. Weyhe the Museum is greatly indebted for generous cooperation in organizing the present exhibition.
